**ERC-20 Token on Ethereum Blockchain  
Initial Version — July 15, 2025**

La Vista Token (LV) is an ERC-20 token created on the Ethereum blockchain. It is designed to serve as a utility token within the ecosystem of La Vista — an iconic 360° rotating restaurant and cultural venue located in Punta del Este, Uruguay.

LV enables access to exclusive experiences and payment options across La Vista's physical spaces.

The token was launched with:

- ✗ No presale
- ✗ No private investors
- ✗ No extracted tokens for speculation

Its mission is to build a transparent, purposeful, and real-world-use digital currency tied to tangible experiences.

## Real-World Utility

LV Token can be used as a means of payment for:

### Art Purchases

Pay for physical artworks exhibited at the gallery inside El Torreón, the iconic building that hosts La Vista 360.

### Fine Dining

Pay for meals or drinks at La Vista 360°, the highest rotating restaurant in South America.

### Accommodations

Use LV to pay for stays in apartments at El Torreón or at the nearby Hotel Concorde.

## Future Use Cases (Exploration Phase)

LV might later be used for:

- Digital art purchases
- Collectibles
- NFT-backed ownership of physical artwork

Currently, NFTs are not in use. The focus is on showcasing physical art first.

## Community Vision

LV Token is born from a cultural and lifestyle experience. It is not just another cryptocurrency — it is a bridge between art, gastronomy, and meaningful human connection.

We believe in:

- 🏛️ Cultural value over speculation
- 👉 Building a conscious, selective community
- 🧠 Real utility over empty hype

LV is not intended as a pump & dump or speculative instrument. It is a long-term project anchored in real value.
